Childcare Consultation

Help For Everyone – Children and Adults!

Toyota City's Dedicated Call Center

Toyota Emergency & Childcare Call 24

[IKKYU-SAN CALL]

When to use the call center:

If you are unsure whether
to call an ambulance

If you are concerned about a
persistent cough (e.g., in an
elderly family member)

If you are not sure which
medical facility to visit

Service is available
in English
and other languages!

If your baby cries
continuously at night and
you are unsure why

If your child keeps
saying "no" to everything
and it is causing stress

If you are worried about
severe picky eating in your
child

(0120) 7 9 9 1 9 2

Available 24/7, Year-Round — Toll-Free

If you are concerned about a sudden illness or have questions about childcare, don't hesitate to call.

For medical emergencies involving severe symptoms – such as loss of consciousness, uncontrollable seizures, or other critical conditions – **please dial 119 immediately** to call for an ambulance.

Who will assist you?

The team includes qualified professionals with real-world experience, such as nurses, doctors, public health nurses, social workers, and clinical psychologists.

Who can use this service?

- Residents of Toyota City
- Anyone currently in the city, including visitors
